# ABOUT SILVERLINE

There are reasons why here at “Silverline” we have been voted twice winners of the coveted “Best Wedding Transport supplier in the UK”. It’s because of the special Silverline service that doesn’t leave anything to chance, our advanced planning and attention to detail ensures we get it right! Once you have booked your wedding car you leave the rest to our dedicated team who make it happen...

Your wedding car will arrive at the designated time and you will be assisted by your experienced uniformed chauffeur who will ensure your safe and comfortable journey to your ceremony. Both car and driver will remain in situ whilst you complete your “I-Do’s” before taking you on your loving journey to your chosen venue for the wedding breakfast. If your ceremony is at the venue we still remain on site so you have opportunity for cherished photographs of both of you with your wedding transport. Your chauffeur will then offer to “steal you away” for a little “newly wed” time allowing you both to relax with a chilled glass of bubbly whilst reliving the vows you have made to one another. This time also allows for stunning photographs to be taken at a pre arranged romantic spot with your wedding car before we take you back to your whirlwind reception.

Being experienced purveyors of wedding transport we control all those little extra details, from dressing your wedding car with ribbons, bows & petals which compliment your colour scheme, to the personalised champagne flutes and not forgetting the “just married” sign for all to see. We take pride in getting it right for you!!!

Here at Silverline we recommend and encourage couples to view our wedding cars, this gives you the opportunity to try them out for size, comfort and suitability. You then get the feel for your vehicle and know how it will be presented on your big day. All viewings are carried out by appointment and include evenings or weekends,
